Carlos A. Carrasquillo Torres

(787) 668-8096 | ccarrasquillo3@gatech.edu | www.carloscarras.tech | U.S. Citizen

Education

Georgia Institute of Technology | GPA: 3.9 / 4.0 — **Aug 2021 – Present**

- PhD, *Robotics* — Expected Spring 2026
  - Grad REACH Scholar — August 2024 – Current
  - Pathbreakers Fellow (formerly University Center for Exemplary Mentoring) — August 2023 – Current
  - NDSEG Fellow — August 2022 – August 2025
- Master of Science, *Computer Science*, Machine Learning Specialization — May 2025
- Master of Science, *Aerospace Engineering* — May 2025

University of Florida | GPA: 3.7 / 4.0 — **Aug 2017 – May 2021**

- Bachelor of Science, *Mechanical Engineering*, Magna Cum Laude Honors — May 2021
- Bachelor of Science, *Computer Engineering*, Magna Cum Laude Honors — May 2021

Experience

Graduate Research Assistant | Georgia Institute of Technology, Institute for Robotics and Intelligent Machines — **Aug 2021 – Current**

Advisors: Anirban Mazumdar, PhD, Aaron Young, PhD

- Developed exoskeleton hardware and optimal learning-based controllers for human navigation, mobility, and injury reduction.
- Performed human-subject experiments using motion capture, EMG, and metabolics to validate exoskeleton hardware and controllers.

Intern | Raytheon Intelligence & Space — **May 2021 – May 2022**

- Developed a MERN stack web application to help engineers find components on printed circuit boards by search and mouseover.
- Engineered a VBA-based desktop application to automate the logging and tracking of material testing data, replacing a manual process.

Undergraduate Research Assistant | University of Florida Dept. of Mechanical and Aerospace Engineering — **Jan 2019 – Aug 2021**

Advisor: Riccardo Bevilacqua, PhD

- Developed embedded C++ avionics software for the D3 CubeSat, creating custom libraries to interface with the satellite's sensors [C1, C2].
- Engineered a ground station application in Python to transmit telecommands and receiving downlinked data from the satellite.

Undergraduate Teaching Assistant | University of Florida Dept. of Mechanical and Aerospace Engineering — **May 2019 – May 2021**

- *Design and Manufacturing Lab (6 semesters)*: Taught >30 students on design for manufacturing principles and usage of shop equipment.
- *Dynamics and Controls Lab (1 semester)*: Lectured to >50 students on applying classical control theory to real-world systems.
- *Thermal Systems and Design Lab (1 semester)*: Guided student teams in designing mathematical models for internal combustion engines.
- *Numerical Methods (2 semesters)*: Lectured on iterative algorithms, linear algebra, Fourier analysis and held routine office hours.

Skills

- *Design & Manufacturing*: Altium Designer (PCB), SolidWorks (CAD, FEA), Fusion 360 (CAD/CAM), Machine Shop Equipment (Lathes, Mills, CNC, Welding), Rapid Prototyping
- *Programming*: Python (NumPy, Pandas, OpenCV, PyTorch, TensorFlow, ROS, OpenMDAO), C/C++, C# (Unity), JavaScript (React.js), MATLAB, Simulink, VBA, VHDL
- *Experimentation:* AR/VR, Electromyography, Metabolics (COSMED, Parvo), Motion Capture (Vicon), OpenSim
- *Personal Projects*: 12-DOF quadruped robot, 3D bioprinter, desktop lathe, MIPS CPU, 5+ websites
- *Certifications:* Amateur Radio Technician (KN4ZUC), SOLIDWORKS Associate (2020), Student Pilot (90+ hours)
- *Languages:* English and Spanish
